Santa Fe Springs, CA 90670

SUBJECT: APPROVAL OF REQUEST FOR EXTENSIONS TO SUBMIT TECHNICAL REPORTS PURSUANT TO CALIFORNIA WATER CODE SECTION 13267 ORDER

SITE/CASE: CONTINENTAL HEAT TREATING, 10643 SOUTH NORWALK BOULEVARD, SANTA FE SPRINGS, CA (SCP NO. 1057, SITE ID NO. 204GW00)

Dear Mr. Stull:

Los Angeles Regional Water Quality Control Board (Regional Board) staff has received and reviewed your letter dated June 8, 2011, requesting extensions to submit the following reports:

1. An assessment report (Assessment Report) following completion of the of the work proposed (and conditionally approved by the Regional Board) in the document *Modified Soils Investigation Work Plan*, dated December 30, 2010, prepared by Fero Environmental Engineering, Inc. (Fero); and,
2. A work plan for additional groundwater investigation (Work Plan) as required in the Regional Board's letters to you dated October 20, 2010, December 24, 2010 (extension approval), and March 30, 2011 (extension approval).

In the Regional Board's January 14, 2011 letter conditionally approving the Modified Work Plan, we required submittal of the Assessment Report by May 13, 2011. This due date was extended to July 15, 2011, in the Regional Board's letter dated March 30, 2011. According to your June 8, 2011 letter, you are requesting this extension due to experiencing delays in construction currently being performed and scheduled to be complete in early September 2011 at the subject site, and the potential safety issues of commencing the proposed investigation while construction is underway. Therefore, the due date for submittal of the Assessment Report is extended from July 15, 2011 to **November 15, 2011**.

The due date for the Work Plan was previously extended to September 15, 2011, in an extension approval letter from the Regional Board dated March 30, 2011. You are requesting a third extension to submit the Work Plan from September 15, 2011 to November 15, 2011, to allow review of the results of the investigation proposed in the Modified Work Plan. Therefore, the due date for submittal of the Work Plan is extended from September 15, 2011 to **November 15, 2011**. Both the Assessment Report and Work Plan can be combined into one document for submitting to the Regional Board.

Mr. James Stull
Continental Heat Treating
SCP No. 1057

June 30, 2011

The due date extensions are amendments to the existing California Water Code (CWC) section 13267 Order issued by this Regional Board on May 5, 2010, and subsequently amended on October 20, 2010, December 24, 2010, January 14, 2011, and March 30, 2011. Pursuant to section 13268 of the CWC, failure to submit the required technical reports by the specified due dates may result in civil liability administratively imposed by the Regional Board in an amount up to one thousand dollars (\$1,000) for every day each report is not received.

If you have any questions, please contact the project manager Mr. David Young at (213) 576-6733 (dyoung@waterboards.ca.gov).

Sincerely,

Samuel Unger, PE
Executive Officer
